

# **NOTICE OF BOARD POSITION VACANCY**

An Opportunity to Serve Your Community

## **BLACK CANYON CITY WATER IMPROVEMENT DISTRICT**

Board member, K. Wolf, found it necessary to resign from this position due to personal business requirements. Every Board position is critical to the District and must be filled at the earliest opportunity by a registered voter living within, or owning property within, the District. The open position is elective, subject to voter approval every four years, and up for election this year.

As required by law, the Board reorganized positions this month leaving the position of At-Large unfilled. The primary responsibility of this position is safeguarding the best interests of Owner/Users. He or she will be expected to become familiar with District issues. This is an excellent position for someone new to become involved in the District's business.

Each Board member represents ALL the Owner/Users and their first priority is to safeguard the Owner/Users' interests. They should be attentive to the input of the Owner/Users, should have no self-interests, should be actively involved in customer relations, should be in frequent contact with Management and must be willing to participate in this civic service without compensation of any kind.

If you are interested please submit a Letter of Intent either by mail or in person a week before the February regular Board meeting outlining your employment background and emphasizing experience that you believe might aid you in fulfilling the duties outlined above. The February Board meeting agenda will include reviewing all received Letters of Intent and making a selection to fill the vacancy. Applicants will be expected to be in attendance at that meeting so they can answer Board questions.
