

BLACK CANYON CITY WATER IMPROVEMENT DISTRICT

623-374-9408

**PUBLIC NOTICE
WATER MAIN REPLACEMENT PROJECT**

Over the next approximately three (3) weeks the District will be replacing the main water lines on K-Field from Bertha Street to the back on Squaw Peak Realty and on Ann Black Street. Service lines will also be replaced on the west side of Ann Black Street.

This is a very needed capital improvement project for our water distribution system. It will, however, create some inconveniences. Traffic barriers are in place and at times flagmen will be directing traffic during the construction for local traffic. Your cooperation is greatly appreciated.

As with any line replacement project, unforeseen, unscheduled interruption of water may occur at any time if a line breaks. We apologize, in advance, for any inconvenience you encounter during the construction. And, again, your cooperation is greatly appreciated.
