K-FIELD/WANDA DRIVE MAIN LINE REPLACEMENT PROJECT

Due to the recent main line ruptures experienced, this project has been deemed urgent and moved up on the calendar. Having planned to replace it this fall, we had asked the County to postpone their blacktopping project last year. Unfortunately, their option was to blacktop first.

START DATE: Week of June 7, 2021

This is a HUGE project with over 2,400-ft of main line plus 47 services being replaced

COMPLETION: by July 15, 2021

YOUR cooperation, patience and understanding is greatly appreciated.

Notices for SCHEDULED shutoffs will be posted in advance. Plus, we will give individual shutoff notice when we are replacing your service line.

There may be, however, UNEXPECTED interruptions of service and for that we apologize, in advance, for any inconvenience. We HIGHLY recommend, you keep some bottled drinking water on hand, as well as a few jugs of water to get you through any shut downs we may experience during the construction.

Streets will be for LOCAL TRAFFIC ONLY & delays may occur. Again, we appreciate your cooperation.

OPERATION MANAGEMENT
Randall J. Hrabina
