K-FIELD/WANDA DR. MAIN LINE REPLACEMENT PROJECT UPDATE

Due to several delays, the expected completion date for the project is now Friday, July 23, 2021

THANK YOU for YOUR cooperation, patience and understanding; it is greatly appreciated.

SCHEDULED SHUTOFFS will occur every day the **week of July 19 thru July 23.**

Water could be off for 3-4 hrs. each time as we tie-in all the main lines. Not all customers will be effected each day.

As you are already aware, UNEXPECTED interruptions of service could still happen and for that we apologize, in advance, for any inconvenience.

We HIGHLY recommend, you keep some bottled drinking water on hand, as well as a few jugs of water to get you through any shut downs we may experience during this final week of construction.

Streets are still for LOCAL TRAFFIC ONLY with delays possible.

Again, we appreciate your cooperation.

OPERATION MANAGEMENT
Randall J. Hrabina

****Note:**

These week long scheduled shutoffs for the project will effect customers on:

Multiple times: K-Field Golden Lane Wanda

One time only: Valley Cr Valley Dr Mechling
